## Chelsea Clocks - Offered by John Crabtree, Watchmaker

You can spend more for a clock but you cannot buy a better one. Simply put, Chelsea is the benchmark by which other timepieces are judged. Starting with fine brass, these clocks are sculpted from forged metal, finished perfectly by hand, fitted to hand-made solid mahogany bases and are then fitted with precision, hand-made and hand-adjusted movements. A Chelsea Clock is more than a purchase. It is an investment which can be enjoyed for a lifetime.

I believe that when a person wishes to buy a luxury product, he or she should be treated accordingly. While I can offer a number of time-saving methods of purchasing a Chelsea Clock, I am here to be of service to you. I am here to answer your questions and help you select the clock which is just right for you. We can customize your clock with an engraved plate or we can design custom engraving for the top of the clock or even the dial to make your clock a true one of a kind. I will work with you through your decision process and I will be here after the sale to answer any questions or to service your fine clock years down the road. Call me at 480-947-9003 to discuss anything about Chelsea Clocks. I will always be glad to speak with you. -john crabtree
